

A Course In Business Miracles Letter To The Universe

1. Really pour out your heart about the vision that you have for yourself. (Write this in letter form, not a bulleted list!)

Dear _____, (Universe, Spirit, or God, Source, or whatever feels right.)

2. Write out WHY you want the vision you have for yourself and your life.

3. Write out all the things that touched you in the Business Miracles material and how you sense that the A Course In Business Miracles Mentoring Programs could support you (there is energy in each line designed to activate those who are an energetic match for this).

4. Now, here's the most important part; write out all and any fears, concerns, worries or doubts that you have about any piece of moving forward - of moving beyond where you are into a new, higher energy pattern: a space of Business Miracles.

5. Then, turn it over. Literally, verbally, surrender it. Let it all go in the letter. Give it over. (Example, "Dear Universe, I am really nervous about..." Or, "I'm afraid that if I do this..." I turn over all of these fears, (insert your own words), and worries to you. Please take them from me. I trust that...". Or something similar.

6. Then, open yourself up and ask for a sign for the right next step regarding moving forward with A Course in Business Miracles. (Example, "Please send/show me a sign to let me know if this is the right choice for me." Or your own version of asking for a sign.) Remember, write it down.

**Note: you may not be hit over the head with a hammer. Many signs are small and subtle, so just be aware of your surroundings. It could come in the form of a butterfly, a license plate, a coin, a cloud formation, a comment that someone makes, or even your own process. Just ask and be open.
